

COMPLIMENTING THE REACTION™ RANGE

ANIMAL HEALTH

TRACEMOL LIFT

Tracemol Lift™ is a unique formulation of essential minerals, trace elements, electrolytes, protein, carbohydrates and vitamins blended in a seaweed base.

Application:

Daily dose = 1-3ml
21 day dose = 10-25ml
(Dosage rates depend on animal size)

TOPTRACE DAIRY

Specifically designed for dairy cows and includes high doses of Copper, Iodine, Selenium and Cobalt in a blend of seaweed for improved efficacy. The synergistic combination of these elements assists animal health.

Application:

Lactating cows 10ml per day
Dry stock 7ml per day
Young stock 3-5ml per day

TRACE ELEMENTS, EDTA CHELATES AND MINERAL CONCENTRATES

PRODUCT	ELEMENT	Description	Form	Element Concentrate
Nutri-B	Boron	B	Concentrate	150g/litre
Nutri-Co	Cobalt	Co	Chelate	90g/litre
Nutri-Cop	Copper	Cu	Chelate	120g/litre
Nutri-Mang	Manganese	Mn	Chelate	60g/litre
Nutri-Zinc	Zinc	Zn	Chelate	130g/litre
Nutri-Mag	Magnesium	Mg	Concentrate	60g/litre
Boro-Solv	Boron	B	Concentrate	100g/litre
Zinc-Solv	Zinc	Zn	Concentrate	75g/litre

ADDITIONAL PRODUCTS

OMNIGIBB

Gibberellic acid is a natural growth hormone found in plants. Omnigibb accelerates pasture growth, improves pasture quality and improves cow nutrition.

Application:

Apply OMNIGIBB at 9 g/ha applied in a minimum of 100 litres of water per hectare. A non-ionic surfactant should be added to the spray mixture at manufacturers label rates.

K-humate® is a highly concentrated source of humic acids which is sourced and produced in Australia. K-humate® holds onto a wide range of nutrients from applied fertilisers in the soil until plants are ready to use them. K-humate® also helps unlock bound nutrients in the soil, making them available to the plants.

Application:

Varies according to crop, purpose, frequency and base fertility. Consult your Chengeta Specialist for application rates.

Specific application rates are best determined in consultation with your Chengeta Specialist.
